Allowable Subject Matter

Claims 1-24 are allowed over the prior art.

The following is a statement of reasons for the indication of allowable subject matter:

Claims 1, 16 and 20 are allowed because the examiner found out that the applicants' argument in the Pre-appear Brief Request filed on 11/28/07 is persuasive. Applicants argued that the references *Masayoshi* ('569) and *Honma* ('711), alone or in combination, do not provide any teachings or suggestions related to detecting the edge of a substrate while the substrate is supported by the stage by **contacting the edge of the substrate**, as claimed (see page 2 of Pre-appear Brief Request).

During further search, the examiner does not find out that the prior art in the record teach or suggest a plurality of probes wherein each probe is adapted to detect the edge of the substrate while the substrate is supported by the stage by contacting the edge of the substrate recited in the claims 1, 16 and 20. Claims 2-15, 17-19 and 21-24 are dependent on the claims 1, 16 and 20 respectively and are allowed accordingly.
